### What is a One Day Makeover package?

One Day Makeover package or “redesign” service caters to clients that want to organize, de-clutter and use their existing furnishings, artwork, accessories and rugs throughout their home, but are bored or unsatisfied with the look of their current room. We have redesigned great rooms, living rooms, master suites and even nurseries. No shopping required unless you approve of adding something new to your space.

The one day room makeover is a simple process of using what you already own and placing it purposefully and artfully in your room. An exceptional room doesn't have to cost a fortune. We all deserve a space we enjoy and can share proudly with guests. I wish that for everyone and it is possible for everyone.

## **ONE DAY MAKEOVER!**

Note: If your space needs any painting of walls ceilings, interior doors & frames, adding new light fixtures or new decorative home accents, we will discuss with you and if you approve, you will be charge separately and we will also do these additions the day before the one day make over.

After receipt of your payment we will email you a link to book your appointment for your consultation.
